Safe & Convenient BLS CPR Recertification

Renew your BLS certification by completing an American Safety & Health Institute (ASHI) BLS eLearning component online, then demonstrating your skills to a live CPR instructor via a 2-way audio/video session (like zoom or facetime) on manikins & AED simulator that we send to your location.

The ASHI eLearning component lets you learn at your own pace, at a time that is most convenient. The remote aspect of the hands-on skills training lets you demonstrate skills in a safe and convenient manner on CPR manikins that were delivered to your door.

After successfully completing the eLearning component and the remote skills session, you will receive an American Safety & Health Institute Basic Life Support (BLS) card, **valid for two years**
