## Safe & Convenient CPR & First Aid Training, Wherever You Are

These classes include hands-on training, as required by licensing. They are not online-only training programs. Cards are valid for 2 years.

**REMOTE** CPR & First Aid training teaches the CPR & First Aid class via a live 2-way audio/video session (like zoom or facetime). During the remote session participants will also demonstrate their skills on manikins that have been sent to you in advance.

- No prior class preparation is required.
- Remote session lasts approximately 2½-3 hours.

**BLENDED** CPR & First Aid training requires each person to complete an eLearning component online prior to class. The remote session is then used **only** to demonstrate the skills on manikins that have been sent in advance.

- Approximately 1½-2 hours of online learning prior to remote session.
- Remote session about 45 minutes.

After successfully completing either class, you will receive a CPR & First Aid card, **valid for two years**

**Pricing:**
